

Daniel Riley/KE4ZZS (SK)

CARA regrets to advise that our friend and colleague Daniel R. Riley/KE4ZZS became a silent key on May 14th, 2021. Daniel was a Viet Nam era Air Force veteran who was once assigned to the Electronic Proving Ground on Fort Huachuca, and after retiring he moved back to the Sierra Vista area. Daniel was Life Member of CARA for more than ten years, and his technical expertise was always very helpful to both old and new hams as they were working on experiments and projects. Besides assisting with our CARA ARES/RACES activities, he was also a member of Cochise County Search and Rescue posse, and the Cochise Composite Squadron of the Civil Air Patrol where he served as a Communications Unit Leader and was selected as the Arizona Wing's Communicator of the Year in 2016. Unfortunately his declining health significantly restricted his activities for the past few years. Per Daniel's wishes, there will not be a public memorial service.
